October 22, 2014

Dear Prof. Lev N. Karlin,

On behalf of the VNU University of Science, I would like to send best wishes to all members and staff of the Regional Centre of the World Meteorological Organization (WMO RTC) in the Russian Federation on its 20th anniversary of its establishment. As a partner institution, I feel proud to be here to see the WMO RTC in the Russian Federation for 20 years of success. As we learnt, for the past two decades, WMO RTC in the Russian Federation has contributed to and got many achievements in both education and research activities, especially on Hydrometeorological study.

We are delighted to work with the RSHU since 2011 when the MOU was signed between RSHU and VNU-HUS. In fact, collaboration between our scientists had started earlier. I would like to say that we have benefited much from this wonderful relationship and would like to extend my most appreciation to the RSHU and WMO RTC in the Russian Federation.

RSHU makes great contribution to the development of sustainable hydrometeorological community. We really hope to continue and enhance scientific and educational cooperation in the future between Russia and Vietnam.

I hope that WMO RTC in the Russian Federation, as a professional consortium of the Hydrology and Meteorology in Federation of Russia, will continue to uphold its success, dynamism and creativity, actively take part in the development of natural science research in Russia.

I do wish the Centre many more years of success and achievements ahead.

Best regards.

Nguyen Van Noi

Rector
